PERSONAL PROFILE WEBSITE

Create a personal website consisting of six HTML pages. Each page must serve a specific purpose and demonstrate the HTML elements and attributes you have learned.

Home (index.html)	Create a homepage that introduces you to visitors. Include a welcome message, your profile image, a navigation menu linking to all six pages, appropriate semantic elements, and hyperlinks.
About Me (about.html)	Create a page describing yourself. Include your biography, educational background, interests, lists, quotations, abbreviations, and relevant dates.
Skills and Education (skills.html)	Create a page presenting your education, skills, and learning progress. Use tables, hyperlinks, progress indicators, definitions, and expandable content using <details> and <summary>.
Projects & Achievements (projects.html)	Create a portfolio showcasing your projects and achievements. Include project images, figures, captions, nested lists, hyperlinks, and links to downloadable files where available.
My Media and Interests (media.html)	Create a page presenting your interests through multimedia. Include audio, video, an embedded YouTube video using <iframe>, and links to relevant external resources.
Contact Me (contact.html)	Create a contact page containing a comprehensive HTML form. Include different input types, labels, fieldsets, selection lists, text areas, buttons, and HTML form validation attributes.

General Instructions:

1. Link all six pages through a consistent navigation menu.
2. Use meaningful personal content instead of leaving placeholder text.
3. Apply appropriate HTML5 semantic elements and attributes.
4. Ensure images have suitable alternative text and form fields have associated labels.
5. Test all page links and form validation in a web browser.
6. Organize your files and multimedia resources in appropriate folders.
7. Use HTML only; CSS and JavaScript will be introduced in later practical sessions.

Welcome to My World!

Hello, I'm John Doe.

Student | Future Professional | Lifelong Learner

I am passionate about learning, discovering new ideas, and developing skills that will help me make a difference.

About Me

Get to know the person behind the website.

My Story

My name is John Doe. I am a curious and motivated person who enjoys learning, exploring new ideas, and improving myself every day.

I believe that every experience, whether success or failure, provides an opportunity to learn and grow.

My Background

I am currently pursuing my education and developing knowledge that will help me build a meaningful career. My goal is to use what I learn to solve problems and contribute positively to society.

My Interests and Hobbies

Some activities I enjoy include:

- Reading books and learning new things
- Exploring technology
- Listening to music
- Playing sports and staying active
- Spending time with family and friends

My Values

Integrity
: Being honest and doing what is right.

Discipline
: Working consistently toward my goals.

Respect
: Valuing other people and their perspectives.

Continuous Learning
: Remaining curious and open to improvement.

A Lesson I Believe In

> "The journey of a thousand miles begins with a single step."

This reminds me that meaningful achievements begin with small actions and consistent effort.

My Future Ambitions

I want to become a skilled professional, build meaningful relationships, continue learning, and use my abilities to make a positive difference.

I know that achieving these ambitions will require patience, effort, and a willingness to keep improving.

My Learning Journey

I started learning HTML to understand how websites are built. I plan to continue learning web technologies and applying them to practical projects.

This page was last updated on October 27, 2026.

My Skills & Education

What I have learned and what I am learning next.

My Education

My Educational Background

Period	Institution	Qualification
2023–Present	Example University	Undergraduate Student
2019–2022	Example Secondary School	Secondary Education

Note: Replace the example information with your own educational background.

My Technical Skills

Skills I Am Developing

Skill	Current Level	Learning Status
HTML	Beginner	Learning
Computer Skills	Intermediate	Practising
Communication	Intermediate	Improving

My Learning Progress

HTML learning progress:

60%

Confidence in computer skills:

7 out of 10

These values are examples. Update them to represent your actual progress and self-assessment.

What I Am Learning

HTML
: The markup language I use to structure web pages.

Problem Solving
: The ability to analyze problems and develop solutions.

Communication
: The ability to express ideas clearly and understand others.

My Learning Plan

- What am I learning this month?
- What do I want to learn next?
- How will I improve my skills?

Useful Learning Resources

- MDN HTML Documentation
- W3Schools HTML Tutorial

My Projects & Achievements

A record of what I create, practise, and accomplish.

Featured Projects

Project 1: My First Web Page

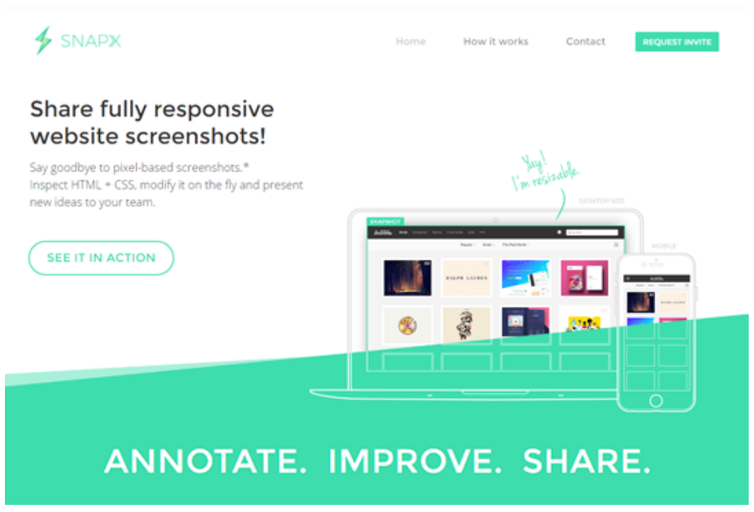

My first attempt at building a web page with HTML.

This project helped me understand how HTML structures headings, paragraphs, links, and images.

What I learned

- Creating a basic HTML document
- Using headings and paragraphs
- Adding links and images

Project 2: Personal Website

A website documenting my learning and development.

This website brings together my background, skills, projects, interests, and contact information.

Website sections

1. Personal information
    - Biography
    - Education
2. My work
    - Projects
    - Achievements

Achievements

- **Learning achievement:** Completed my first HTML page.
- **Academic achievement:** Add a real academic achievement here.
- **Personal achievement:** Add an achievement you are proud of.

Project Files

Visitors can use the link below to download a sample project document.

Download My Project Report (PDF)

My Next Goals

My future projects will help me develop these abilities:

- Build a complete website with several connected pages.
- Learn CSS to improve the appearance of my website.
- Learn JavaScript to make my website interactive.

© 2026 John Doe. Personal website.

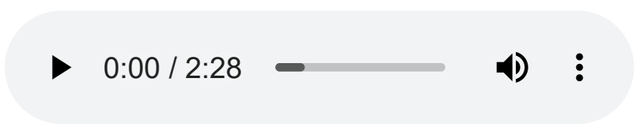

Every project is an opportunity to learn something new.

My Media & Interests

The music I enjoy, the videos I watch, and the things I love learning.

My Favourite Music

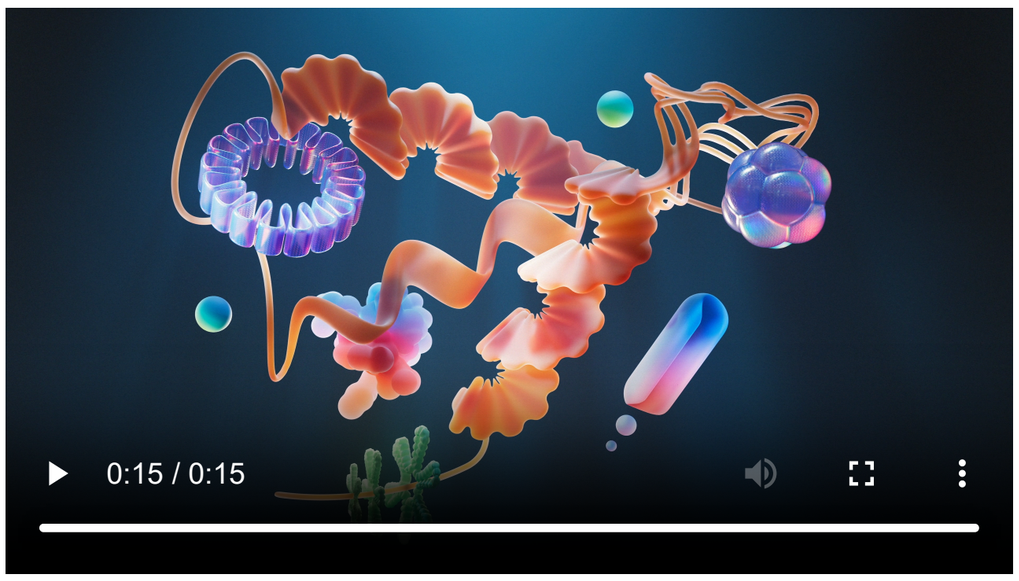

Music can help me relax, focus, and enjoy my free time. Here is an example of how to add audio to a web page.

Replace this sample file with an audio file you have permission to use.

My Favourite Videos

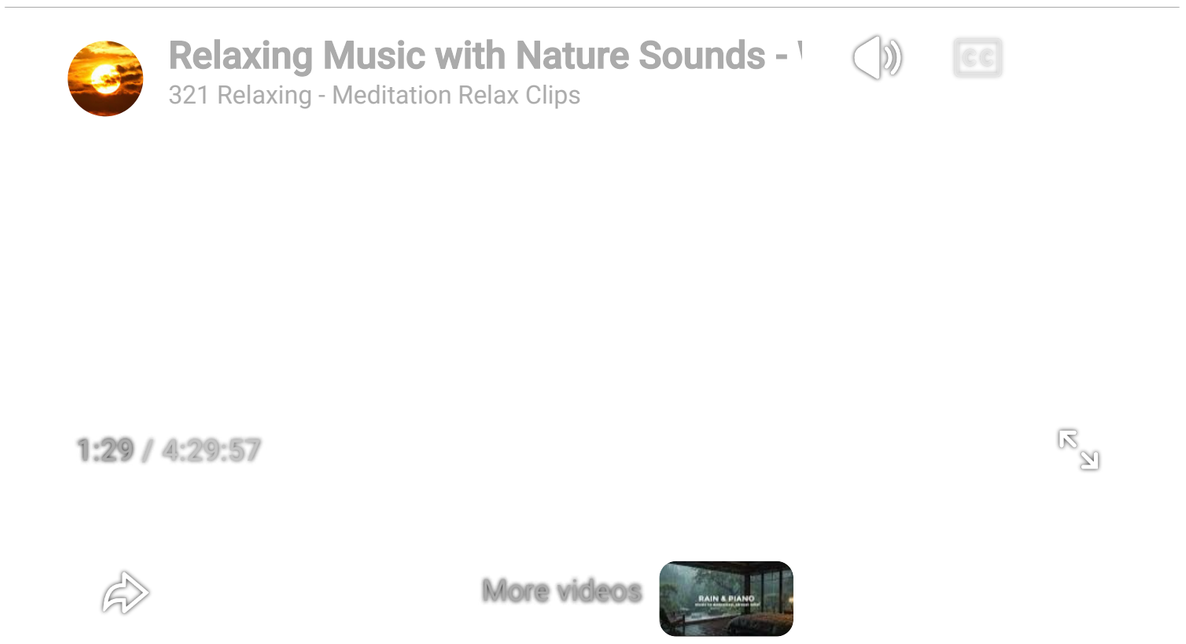

A Video from My Collection

I can use this section to share a learning video, a personal recording, or another video I am allowed to publish.

Learn from YouTube

I use online videos to learn new skills and explore ideas. The embedded video below is an example.

Replace VIDEO_ID with the ID of a suitable YouTube video. For example, if the video URL is https://www.youtube.com/watch?v=abc123XYZ, the video ID is abc123XYZ.

Topics I Enjoy Exploring

- Technology
  - Web development
  - Software engineering
- Personal development
  - Communication
  - Leadership
- Other interests
  - Add a hobby you enjoy.
  - Add another topic you want to explore.

Useful Learning Resources

These websites help me explore web technologies:

- MDN HTML Guide
- W3Schools HTML Tutorial
- YouTube
